FDNY Retired Fire Fighters of CA & NYPD Retired Police Officers of CA

Q: How do Public Safety Officials benefit from the sculpture? A: The ROS sculpture promotes Public Safety officials and is therapeutically created to be of practical use, the sculpture encourages Uniformed Public Safety Officials, Military, Fire Fighters, EMT's, Paramedic's and Police Officer 's to come together and build the 18ft high by 23ft wide metal structure, benefiting by discussion, camaraderie and allowing individuals to make it personal by adding their fingerprints to the metal beams, this ensures that it will have been touched by 1000's of Brothers hands and have become a very meaningful gift from "Brother to Brother" for formal hand over to FDNY, New York 11 September 2006.
