RE: World Memorial Release of Souls
Date: June 9, 2006

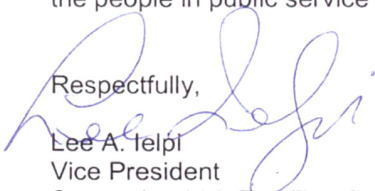

I truly feel that the World Memorial Release of Souls and Concert of International Healing will bring to New York City and tri-state area a sense of healing and hope for the future on the 5th anniversary of the terrorist attack on our country.

I thank the tireless efforts of the World Memorial team – comprised of professionals from all over the world, including many Fire and Police Departments who have contributed to this outstanding Memorial.

I extend my sincere appreciation to creator Kathleen Tonnesen who united her Canadian community to build this beautiful sculpture, and San Diego California Firefighter and Paramedic Mitch Mandler and retired New York City Firefighter Jack Toale, for bringing this memorial to us.

September 11th Families along with the hundreds of thousands of visitors that will be here for the 5th anniversary will experience the healing of the World Memorial Release of Souls memorial sculpture and concert. The sculpture and concert will be an inspiring recognition of the people in public service that daily protect our city.

Respectfully,

Lee A. Ielpi
Vice President
